

PRESIDENT'S MACHINE STALLED

On Motor Trip from Denver to Wolhurst—Hard Rains Made the Roads "Greasy"

Wolhurst, Col., Sept. 22.—Leaving Denver early this morning under a brilliant sky and motoring for fourteen miles within view of the snow-capped peaks of the Rocky Mountains, President Taft arrived here shortly before ten o'clock this morning as the breakfast guest of Mr. and Mrs. Thomas F. Walsh.

The president's visit was made the occasion of a re-christening of the beautiful Walsh estate, which heretofore has retained the name of Wolhurst, given by the former owner, the late Senator Wolcott. The president re-christened the estate "Clonmel," after the little Tipperary county town in Ireland which the president declared has put us all under an obligation for having given to us Thomas Walsh.

On the way to Wolhurst this morning over roads that had been made "greasy" by the hard rains of last night, the president's automobile became stalled and had to make a quick transfer to one of the following machines.

Special trains from Denver brought several thousand people to Wolhurst

and the president held a reception on the lawn.

Secretary of the Interior Ballinger joined the president's party in Denver last night and will go with Mr. Taft as far as Seattle. It was said today that the president would probably not make a formal speech on the subject of irrigation and the conservation of natural resources until he reached Spokane, Wash., September 25. As Salt Lake City is in the heart of an irrigated district, the president may make the address there.

Senator Warren of Wyoming was with the president on parts of his journey today. When Mr. Taft was urging Senator Warren to withdraw his objection to free hides during the tariff fight, he predicted that within a year the senator would come to him with the announcement that despite the removal of the duty, hides had gone up.

"I told the president today that hides had gone up," said the senator. "Argentina was quick to take advantage of the situation and immediately raised prices."

The president left here at noon for Colorado Springs, where he spent an hour and then proceeded to Pueblo.

LETTERS TO THE EDITOR.

United Workers' Sale.

Mr. Editor: In order to clear its shelves for another season's work, the employment bureau of the United Workers is now offering to the public its stock of made up goods, at a mark-down sale at its rooms, No. 9 Washington street.

There may be found a large and useful variety of articles, including sheets, pillow slips, nightgowns for women and children, aprons in white, check and print, for women and children, towels, dusters and many other things.

These articles have been made by sewing women during the past season out of goods furnished by the bureau for which a nominal price has been paid, and thus assistance rendered to many in this wise.

The proceeds of the sale go into the treasury to provide new stock for another year.

The sale will last till everything is sold.

Hours, 9-12 and 2-5.

C. A. NORTROP.
Norwich, Sept. 22, 1909.

JEWISH MASSACRES AT KIEF.

Outrages Confirmed by Papers—Despatches to Germans.

Berlin, Sept. 22.—Not since the Kishinef massacre of 1903 has the German press been so aroused over an anti-Jewish outrage as today over the reports of the attack on the Jewish quarters of Kief and its suburb of Sotomka, and the desperate attempt of the Russian authorities to suppress all news of the outrage.

The Morgen Post declares that "the corpses of many of the murdered Russians were conveyed to the mortuaries and many of the wounded were removed to the hospitals."

The Tageblatt has a message from Kief, via the frontier, to the effect

that between 20 and 30 were killed and hundreds wounded.

The Lokal Anzeiger has a long story from Podwlozky, the first Austrian town this side of the frontier. In part it says:

"Great anti-Jewish riots have taken place at Kief and in the suburb of Sotomka, where the Jews live in large numbers."

"The police watched the rioting with no thought of interfering and there is no telling to what length it might have gone had not a deputation of leading Jews waited on Governor General Ivanoff and demanded protection. Troops were then sent to Kief and they dispersed the mob in short order and occupied the approaches to the Ghetto to prevent further outrages. None of the rioters have yet been arrested, the authorities evidently condoning the outrage."

The Berliner Zeitung prints substantially the same story as the Anzeiger. Vienna, Sept. 22.—Leading Austrian newspapers today print long and detailed accounts of the three days' "Jew hunt" in Kief and its suburbs. The Neu Fre Presse, the Allgemeine Zeitung and the Zeit accounts show that the massacre was second only to the Kishinef outrage, while the Stovo Polsky of Lemberg, Austria, calls it a "repetition of Kishinef, with happily fewer killed."

"Copenhagen, Sept. 22.—The National Tidende and other leading papers of Copenhagen print today for the first time the details of the massacre of Jewish men, women and children in Kief and Sotomka. The papers assert that it is time that the civilized world took a hand in Russia's internal affairs if the Kief affair is a sample of the czar's ability to protect his people."

FRENCH AERONAUT DASHED TO DEATH

While Testing Aeroplane the Machine Turned Completely Over.

Boulogne, Sept. 22.—Captain Ferber, an officer of the French army, was killed near here today while testing an aeroplane. While in the air the machine turned completely over and Ferber was crushed to death by the motor.

Captain Louis Ferdinand Ferber had been detailed for several years past to devote himself exclusively to aeronautics, and he labored particularly with the idea of developing first balloons and then heavier than air machines for military purposes. He worked with the Lebaudy brothers, and the dirigible balloon La Patrie was an outcome of this co-operation. Captain Ferber's interest, however, turned quickly to the heavier than air machine, and he was a pioneer in this field.

OBITUARY.

Robert Hoe.

London, Sept. 22.—Robert Hoe, head of R. Hoe & Co., printing press manufacturers of New York and London, died here today after a short illness.

Mr. Hoe had been in London several weeks on his annual business trip. He suffered an acute attack of kidney trouble ten days ago and his death resulted. No arrangements have been made for the funeral.

Robert Hoe was 70 years old. He early succeeded his father, Robert H. Hoe, in the management of the printing press factory established by his grandfather, Robert. He achieved fame as the greatest in a family distinguished for its achievements in bringing the mechanical art of printing to its present high perfection.

When Robert Hoe entered the business of his father and grandfather, the "Hoe cylinder," patented in 1846, was considered a marvel. His inventive genius, coupled with his administrative ability and the faculty of surrounding himself with efficient aids, developed the old "Hoe cylinder" into the present double sextuple and double octuple presses. Robert Hoe was also the inventor of color printing presses.

Besides being the principal owner of R. Hoe & Co. with large factories in New York and London, he was an extensive manufacturer of circular saws and saw bits. He was one of the

founders of the Metropolitan Museum of Art.

FASTEST ROAN HORSES

Not Only in State But in World—Owned in Ansonia.

Ansonians will be glad to learn, says The Sentinel, that this city is now credited with being the home of the fastest pair of roan horses in the world, and, as might be expected, they are the two horses owned by Messrs. Johnson and Kaiser—horses which have attracted attention throughout the eastern states and whose best work, doubtless, is yet to be done. A Boston paper which is a usually careful and authentic journal, especially in its racing news, has this to say of Ansonia's fast pair:

"Hoosier Prince scored for the first time this season and earned a mark of 2.97 1-4, which gives Johnson and Kaiser of Ansonia, Conn., the fastest pair of roan horses in the world, as they also own Cecilian King, 2.08 1-2."

"FRANK G. TROTT."

Moreoco Has Refused the Demand of Spain to withdraw the note asking the intervention of the powers.
